

## Module E: Solving Systems of Linear Equations

### Readiness Assurance Outcomes

Before beginning this module, each student should be able to...

- Determine if a system to a two-variable system of linear equations will have zero, one, or infinitely-many solutions by graphing.
- Find the unique solution to a two-variable system of linear equations by back-substitution.
- Describe sets using set-builder notation, and check if an element is a member of a set described by set-builder notation.

### Readiness Assurance Resources

The following resources will help you prepare for this module.

- Systems of linear equations (Khan Academy): <http://bit.ly/2121etm>
- Solving linear systems with substitution (Khan Academy): <http://bit.ly/1S1Mpix>
- Set builder notation: <https://youtu.be/xnfUZ-NTsCE>
